JHOSSUA VEGA

Data Architect & Cloud Solutions

Data Architect with over 5 years of experience in data engineering and governance. I define the technology stack, design Medallion and Data Lakehouse patterns, and deploy robust solutions on AWS, Azure, and Databricks.

EDUCATION

Universidad Politécnica Salesiana (UPS)

B.S. in Computer Science Engineering Aug 2018 – Feb 2025

Universidad Estatal de Milagro (UNEMI)

Language Pedagogy (English) Aug 2021 – Aug 2025

Colegio Técnico Vida Nueva

Technical Baccalaureate in Information Technology Sep 2009 – Jun 2016

EXPERIENCE

TuringTech — Solutions Architect & Tech Lead January 2025 – Present

- I design the architecture and lead cloud deployment of custom solutions across BI, AI, and Data Engineering.
- I define the technology stack and architectural patterns (microservices, serverless).
- I direct a technical team of 4, ensuring scalability, security, and cost optimization.

Handytec — Data Engineer November 2025 – Present

- I implement data solutions on Microsoft Fabric and Databricks: Lakehouses, notebooks, and ETL/ELT pipelines with PySpark, Dataflows, and Python.
- I design architectures under the Medallion pattern and integrate data from APIs and transactional systems.
- I govern data (lineage, catalog, quality) and build Data Marts for analytics and reporting.

Gestcobra Cía. Ltda. — Data Engineer March 2024 – November 2025

- I designed the enterprise data architecture under the Medallion pattern, with standardization and traceability.
- I built ETL/ELT pipelines in Python for transactional data and financial APIs.
- I managed AWS infrastructure (S3, EC2, IAM) and automated collections KPIs.

Office of the Attorney General of Ecuador — Database Administrator August 2023 – February 2024

- I administered and optimized high-availability institutional databases.
- I implemented backup, recovery, and business continuity strategies (RPO/RTO).
- I automated structured migrations and document digitization.

Fisa Group — Data Engineer & BI Developer January 2022 – July 2023

- I orchestrated and optimized ETL pipelines, reducing load times.
- I designed data models and stored procedures in SQL Server and PL/SQL.
- I implemented data quality controls and executive dashboards in RShiny.

SKILLS

LANGUAGES & PROCESSING

Python · SQL · Java · JavaScript · TypeScript · PySpark · Apache Spark · Apache Flink · Kafka

FRAMEWORKS & DEVELOPMENT

Angular · React · Node.js · .NET / C#

DATABASES

SQL Server · Oracle / PL-SQL · PostgreSQL · MySQL · MongoDB · Cosmos DB · DynamoDB · Redis

CLOUD & PLATFORMS

AWS · Azure · S3 · Databricks · Microsoft Fabric · Data Factory

ARCHITECTURE & MODELING

Data Lakehouse · Data Warehouse · Data Mesh · Data Fabric · Delta Lake

ORCHESTRATION, DEVOPS & QUALITY

ETL / ELT · Apache Airflow · CI/CD · Docker · Git · Grafana · SSIS

LANGUAGES

Spanish English

CERTIFICATIONS

Cloud Architecture & Data Engineering

- Microsoft Certified: Fabric Data Engineer Associate (DP-700) — Microsoft, 09.2026
- Fabric Data Engineer Bootcamp — 03.2026
- AWS Certified Solutions Architect – Professional — AWS, 08.2025
- AWS Certified Solutions Architect – Associate — AWS, 05.2025

Data Lakehouse & Databricks Ecosystem

- Agent Fundamentals — Databricks, 07.2026
- Generative AI Fundamentals — Databricks, 07.2026
- Databricks Fundamentals — Databricks, 07.2026
- AI Practitioner Certificate — 04.2026

Generative AI & LLMs

- Claude Code in Action — Anthropic Education, 03.2026
- Model Context Protocol — Anthropic Education, 02.2026
- Google Cloud AI Essentials: Gemini — Google Cloud, 09.2025
